

Dear Academy Parents,

Western Arkansas Ballet produces two full-length ballets each year. During Production Week it is difficult to maintain our normal class schedule due to our staff having responsibilities at the theatre. We do not like to cancel classes, so during Production Week we consolidate classes and we are able to offer almost every class/level at least once during the week. Below is the class schedule for the week of **March 27-31**. Some classes are not on this schedule because the students are in the production. We understand that these days and times might be different from your usual day and time. We appreciate your patience and understanding. If you are unable to attend your class due to these changes during Production Week, you may make them up at a time convenient to you. If there is a class that is not on this list, we will have a make-up day for that particular class later in the semester.
